MESSAGE FROM THE PRESIDENT/CEO

For more than 70 years, Tift Regional Medical Center has been the healthcare leader in South Central Georgia. Our success can be attributed to the talented, highly trained providers and support staff who work hard each day to provide quality, compassionate care.

Thanks to a progressive Board of Trustees, we constantly invest in the latest technological innovations to give our staff the most up-to-date tools for diagnoses, treatment and exchange of information. We are dedicated to bringing you the highest level of expertise and technology in a setting focused on comfort, convenience and well-being.

At TRMC, you will hear a lot about our guiding values of caring, respect, integrity, collaboration, and excellence. To all of us working to ensure that our patients and their families receive the best possible care, these standards have great meaning. Thank you for placing your trust in TRMC.

Respectfully,

William T. Richardson
PRESIDENT/CEO

A Great Place to Work and Live

About Us

Tift Regional Medical Center is a 191-bed, not-for-profit hospital serving South Central Georgia. TRMC offers signature services in surgery, oncology, cardiovascular care, women's health, neurology, medical imaging, and more. TRMC is under the direction of the Tift County Hospital Authority, a board of volunteer trustees appointed by the Tift County Board of Commissioners. TRMC is a self-sustaining healthcare institution and provides for the community's charitable care without financial support from county government.

Tift Regional Medical Center Foundation

The Tift Regional Medical Center Foundation is a not-for-profit organization dedicated to enriching health care in our community through fundraising, medical equipment donations, building project assistance, patient experience enhancements, medical scholarships, and more. Please call (229) 391-3310 for more information.

Community Spirit

The mission of Tift Regional Medical Center's Community Spirit program is to contribute to the well-being and development of our community through outreach efforts, including preventative health education, screenings, wellness programs, and corporate and employee contributions. Input is solicited from various community voices in order to explore ways in which TRMC can collaborate with local agencies and partner organizations to address community needs. Please call (229) 353-6318 for more information.

HIGHLIGHTS

TRMC Recognized for Excellence in Heart Care, Spine Surgery

Georgia Trend magazine named Tift Regional Medical Center a Top 10 Georgia Hospital in Coronary Intervention and Orthopedic Spine Surgery. *Georgia Trend* used available state and federal clinical outcome data provided by HealthGrades®, a leading healthcare-ratings organization.

The Future Is Now with da Vinci® Robotic Surgery

TRMC now provides the da Vinci® Surgical System for women seeking less invasive surgical relief from gynecological conditions such as uterine fibroids, endometriosis, uterine prolapse, vaginal prolapse, or excessive menstrual bleeding. The da Vinci system is a sophisticated robotic platform that expands capabilities for surgeons and offers patients smaller incisions, less discomfort, and a quicker return to normal activities.

Plastic and Reconstructive Surgery Comes to Tifton

Tifton native Derron Spikes, MD, is now performing plastic and reconstructive surgery procedures at TRMC. Dr. Spikes also provides advanced treatment, such as skin grafts, for burn victims and can help manage care for patients who suffer from chronic or nonhealing wounds.

ICU Adds Extra Set of Eyes to Enhance Care

TRMC has partnered with Advanced ICU Care® to provide a program that uses remote computer monitoring to connect TRMC ICU patients on a 24/7 basis to critical care specialists (intensivists) and nurses. This technology—in collaboration with TRMC's local physicians and nursing staff—provides an extra level of care to patients and has been proven to help save lives and shorten the length of ICU and hospital stays.

Affinity Now Manages Hospital Medicine Program

Affinity Hospital Medicine now oversees TRMC's Hospital Medicine program, which provides primary care doctors and physician extenders who devote time solely to the care of hospitalized patients. TRMC previously contracted with a national firm to provide this service. Family physicians and internists on the TRMC medical staff have the option of admitting their own patients for inpatient care or utilizing the Hospital Medicine program.

Transfer Center Eases Physician Referral Process

TRMC opened a new 24/7 Transfer Center for referring physicians to expedite time-sensitive emergency transfers, direct admissions, and hospital-to-hospital transfers for specialty care. A nurse with the TRMC Transfer Center locates the appropriate attending specialist on call and facilitates a conference call between the referring doctor and accepting specialist. The Transfer Center nurse works with the accepting specialist on bed placement coordination and hospital medicine support.

New Women's Health Navigator

TRMC has introduced a new Women's Health Navigator program. Debra Hardeman, RN, is a nursing professional who is specially trained to coordinate the clinical, educational, and supportive needs of patients facing a breast cancer diagnosis, bone health disorder, and other related health issues.

Patient Orders Now Sent Electronically

TRMC has gone live with CPOE, which stands for computerized patient order entry. CPOE provides physicians the ability to electronically enter hospital patient orders to be sent to appropriate departments. In addition to enhancing the level of care for patients and improving efficiencies, CPOE is one of the core objectives of the federal government's Health Information Technology for Economic and Clinical Health Act, a part of the American Recovery and Reinvestment Act.

TRMC Initiative Improves Processes, Carves Out Costs

TRMC has implemented a new initiative called F.O.R.G.E. Ahead using a business improvement model known as Lean Six Sigma. This model, used in many other industries, utilizes statistical and analytical processes to measure and improve quality and performance. F.O.R.G.E. stands for Focus on Outcomes, Realized savings, Growth and Efficiencies.

WorkSmart Helps Farmers Meet New EPA Requirements

The Environmental Protection Agency (EPA) now requires farmers to be evaluated and medically cleared to wear respirators when handling fumigants. TRMC's occupational health clinic, WorkSmart, has trained personnel available to help farmers get checked quickly and comply with the new standards.

{ TIFTON-TIFT COUNTY: A GREAT PLACE TO WORK AND LIVE }

Located in South Central Georgia, Tifton-Tift County is a warm, inviting community

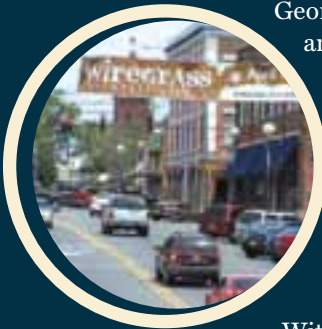

that combines small-town charm with a progressive spirit. Primary industries include agriculture, research, health care, distribution, and manufacturing.

Living

Tifton is alive with shopping, dining, and entertainment thanks to a growing community and designation as a national “Main Street” site. Encompassing a historical district, new subdivisions, lakeside homes, and country residences, Tift County’s housing market has broad appeal.

Schools

Focusing on academic excellence, the Tift County public school system has six elementary schools, two middle schools, one junior high and one high school. The new, state-of-the-art Tift County High School is the largest educational facility of its kind in all of Georgia. Tiftarea Academy is a private school offering pre-kindergarten through 12th grade education

with a strong emphasis on college preparation.

Higher Learning

Tifton is the location of Georgia’s largest two-year institution for higher learning, Abraham Baldwin Agricultural College. The school also offers select four-year degrees through the University of Georgia. Moultrie Technical College provides a host of vocational degrees at its Tifton Campus. Combined with research facilities such as the University of Georgia-Tifton Campus and Coastal Plain Experiment Station, Tifton has more PhD graduates per capita than anywhere else in the nation.

Recreation

With the Tift County Recreation Department, YMCA and local gyms, those who wish to maintain an active lifestyle through organized sports and personal fitness will find Tifton ideal. State parks and nearby lakes (including sprawling Lake Blackshear, covering 8,000 acres) offer an abundance of camping, hiking, fishing, and boating opportunities. Golfers can take a swing at Pine Island, Forest Lakes, or Sunsweet Hills golf clubs. Get a relaxing, therapeutic massage

or manicure at one of many spas and salons in town. Take the family to nearby Wild Adventures amusement park for a day of fun.

Culture and Entertainment

Tifton holds numerous festivals throughout the year. The Tift Theatre, the Tift County Performing Arts Center, UGA Tifton Campus Conference Center, and Abraham Baldwin Agricultural College Arts Station provide the best in culturally enriching entertainment. Museums include the Georgia Museum of Agriculture, Atlantic Coastline Artists Station, and Tifton Museum of Arts and Heritage.

Close to Southeast Attractions

Many of the Southeast’s attractions are only a few hours’ drive away from Tifton, including large metropolitan areas such as Atlanta, Jacksonville, and Orlando, as well as natural wonders such as the Blue Ridge Mountains, the Atlantic Ocean, the Gulf Coast, and Okefenokee Swamp.
